

# Delegation Trip to Germany

## Nordic Countries Business Delegation to Saxony- Anhalt and Saxony in the fields of Hydrogen and Smart Energy

04 - 07 September 2023

Germany wants to become climate-neutral by 2045. To achieve this, the country is taking ambitious measures to advance hydrogen technology. Decision-makers in Norwegian, Swedish and Finnish companies can see this for themselves: The exclusive trip will take them to designated funding projects and hydrogen experts and offtakers from research, science and business practice.

Be part of the delegation and benefit from the following comprehensive visit programme including networking and matchmaking.
